TELECOM FRAUD TASK FORCE

PROTECTING PEOPLE FROM TELECOM FRAUD! —AIMING TO ERADICATE TELECOM FRAUD

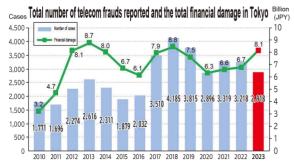

As a countermeasure against an increasing number of refund fraud cases, the TMPD is promoting the "Stop! Don't Use Cell Phones at ATMs" campaign, so that the concept of "Do not talk or let others talk on cell phones at ATMs" gets widely spread and becomes a social rule.

Total number of telecom frauds reported and the total financial damage in Tokyo

In 2023, there were 2,918 reported cases of telecom fraud in Tokyo, with the financial damage amounting to approximately 8.15 billion yen. While the number of cases decreased from the year before, the amount of damage increased.

Additionally, the number of telecom fraud cases detected in Tokyo was 2,539, with 665 individuals apprehended. Compared to the previous year, the number of cases detected increased, but the number of individuals apprehended decreased

The statistics include cases of ATM card collection fraud starting from 2018

CYBER SECURITY CONTROL TASK FORCE

REALIZING A SAFE AND SECURE CYBERSPACE

Public awareness poster

While cyberspace has become an increasingly important public space for social and economic activities, incidents, including ransomware attacks and phishing, continue to occur frequently.

To ensure the safety and security of cyberspace, the TMPD is promoting activities that prevent cyber crimes, including dissemination of information through social media, giving smartphone crime prevention classes and holding practical seminars.
