Important points to consider when purchasing an electric assist bicycle

Check!

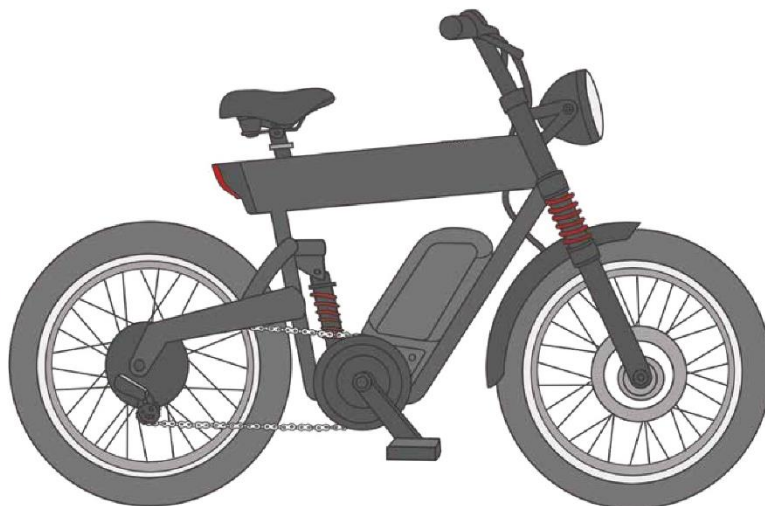

Is it made overseas? Does it meet the standards of Japan's Road Traffic Act?

Check!

Is it easy to install accessories?

Check!

Does it accelerate without pedaling?

There are folding e-bikes that look just like bicycles, however.

Check!

These vehicles may be classified as motorbikes, only with vague descriptions such as "full-electric assisted" or "e-bike".

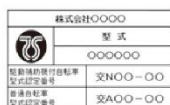

You may need a driver's license even if these vehicles are sold as electric assist bicycles.

Make sure to check the "vehicle classification under the Road Traffic Act" before purchase.

Does it have this mark?

Choose products with the **TS Mark** when purchasing and/or riding electric assist bicycles.

Tip!

"Electric unicycles" and "motorized suitcases" are not allowed on the road!

Vehicles with motors, including electric unicycles and motorized suitcases, are classified as "cars" or "motorized bicycles." These vehicles without brakes or lights do not meet safety standards and therefore cannot be driven on the road.
